

1 head yes. Could I ask her some questions; nodded yes.
2 I asked her, "Do you know what happened to you," and
3 both eyes opened up real wide and she nodded her head
4 yes. I asked her, "Were you shot," nodded her head yes.
5 I think I said, "Do you know who did it," nodded her
6 head yes a lot of times, repeatedly. I asked her,
7 "Was it Mr. Jacobs," nodded her head yes. I said, "Was
8 it Steve," yes. "Was it Steve Jacobs," yes. "Was
9 anyone else with Steve," nodded her head no. "Was
10 there anyone else there?" She nodded her head no.
11 At one point I asked her, "Were you shot with a gun?"
12 She nodded her head yes. I asked her, "Did she crawl
13 under the bed?" She nodded her head yes. I asked her,
14 "Did you crawl under the bed after Steve shot you,"
15 and she nodded her head yes. I asked her, "Were there
16 a lot of shots fired?" She nodded her head yes.
17 I asked her if she called on the telephone. We weren't
18 sure how the police got notified really at that point
19 and she paused for a while and then shrugged her
20 shoulders as if she didn't know one way or the other.
21 I then asked her if she knew that she was going to be
22 okay. I asked her, "Are you feeling better?" She
23 nodded her head yes. I said, "Do you know you're going
24 to be okay?" She nodded her head yes. I asked her, "Do
25 you know that you are safe now?" She nodded her head

Larry Barksdale - Direct

1 yes and that was basically it.

2 Q. Now, did you become aware through your investigation
3 there at the scene whether or not multiple gunshots
4 had been fired?

5 A. Yes.

6 Q. How did you become aware of that?

7 A. Well, the first body had numerous, in my experience,
8 what were gunshot wounds and there were numerous brass
9 casings lying around in the hallway and that from
10 examining -- when I first saw the bed, there appeared
11 to be gun holes in the bed or what to me, I assume,
12 were gunshots into the bed. When we got her -- finally
13 got her, I thought there were at least two wounds.
14 I didn't know how many. There was a lot of blood around
15 the torso and head indicating at least two separate
16 wounds. There were probably quite a few shots fired.

17 Q. An examination of the exterior of the house and the
18 interior walls, would that also have let you -- given
19 you some idea that more than one gunshot was fired?

20 A. Yes.

21 Q. Would you explain that?

22 A. Well, I didn't do the crime scene, but I walked around
23 the outside. I could see -- I talked to an officer
24 who was across the street. He found a round that had
25 went through the walls in a car.
